

CADSTATION

ACCOUNTING CLIENT

CADSTATION Accounting Client offers you the easiest and most convenient way to generate invoices and delivery notes for the print/copy services directly out of your CADSTATION solution. Simply open the Accounting Client in your web browser and select the desired time period, the account, project or cost center as well as the corresponding price list to receive invoices and delivery notes as PDF at the click of a button.

Work-Flow

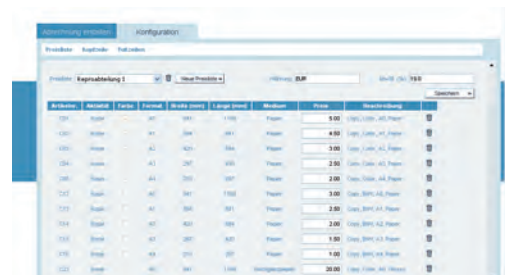

For each job, CADSTATION sends the following information to the Accounting Client:

- Activity (Print, Scan, Copy)
- Color or B/W
- Media
- Account, project and cost center information

The easy-to-use web interface offers a dialog to enter the following report parameters:

- Time
- Selection: Account, Project or cost center
- Output Type (Invoice or Delivery Note)
- Price list

Prices for each article are stored in a separate and individually customizable price list. Each article specification consists of:

- Activity (Print, Scan, Copy)
- Color or B/W
- Media

Invoices or delivery notes (PDF) are generated simply by one click
